Gold and Flour.
New York, Oct. 6.—Gold has been up to-day to 149, but subsequently declined to 146 1/2.
Flour advanced 25 cents on previous quotations.

General Grant and Staff.
WASHINGTON, Oct. 6.—Lieut. Gen. Grant and staff arrived here this morning from their extensive trip through Northern and Western States.

The rumor that he will soon recommend the early withdrawal of all troops from North Carolina and other Southern States has again been revived and is generally credited.

Juarez at Santa Fe.
St. Louis, Oct. 6, 11 P. M.—A gentleman just arrived in this city from Santa Fe, New Mexico, reports that Juarez, the leader of the Liberals of Mexico against Maximilian and his supporters, had reached that place en route for the United States. Doubts are entertained of the truth of the report, as no reason for such an extraordinary step is known to exist. The loss of the cause he represents and the complete success of the French policy alone would warrant his abandonment of the field.

Episcopal General Convention.
PHILADELPHIA, Oct. 6.—This morning two deputies from the diocese of Tennessee were present at the session of the General Episcopal Convention, but owing to the absence of the Secretary from their State, were unable to present their certificate. It was moved and carried, however, that the names of the Tennessee deputies be placed on the roll.
9 P. M.—In the Episcopal Convention, this afternoon, the Rev. Dr. Cumming offered the following resolution, which was passed:
Resolved, That this house offers its profound gratitude to God that we have among us our brethren, the clergy and lay delegates from the dioceses of North Carolina and Texas, and we recognize by their presence in our midst a token and pledge of future and entire restoration of union in our church throughout the length and breadth of our land.

United States Senator—James B. Campbell.
Editors Phoenix: Upon the Legislature, which will assemble on the 25th of this month, will be devolved responsibilities of the gravest character. Not least among these will be the selection of two Senators to represent this State in the Federal Union. Into this selection no considerations should enter but such as subserve the lofty purpose of promoting the highest welfare of our beloved Commonwealth, her speedy restoration to her alienated relations with her sister States, and the insuring to her therein of a complete, perfect and cordial harmony of sentiment and of action.
All pride and prejudice should give way to the accomplishment of ends so momentous, so pre-eminently vital to her future status—yes, to her very life itself. Who best combines in himself qualities fitted to attain these ends, should be the over-ruling question asked by those to whom shall be assigned the duty of choosing our Senators. When such a man is found, all other considerations should be put aside, and the person so answering selected.
We submit, as one strikingly presenting a combination of the elements we have cited, the name of JAMES B. CAMPBELL, Esq.

To a mind of large calibre, profoundly logical in its structure, with faculties sharpened by the attrition which long political experience has given, he unites a judgment signally sound, a circumspection never surprised, a temper in discussion never thrown from its balance, and that highest attainment of the true statesman—the faculty of testing all measures, how much soever they may commend themselves in theory, by the standard of what is feasible and practical.
We sincerely believe that the best interests of our State would be advanced by calling Mr. Campbell to the Federal Senate, and so believing, we present his name to those who shall be charged with the duty of selecting our Senators. RIGHT.
